

No Place Like Home (feat. Rosette)

[Blasterjaxx](#)

When I was young I thought I knew how things were done
Mama said don't lose your head [?] forget where you're from
I swore when I got older, that I'd leave this place behind
I ain't never looking back and I've never changed my mind I never knew the world would be so cold
Now all I want to do is find my way home
No place like home No place like home I'm not afraid of losing and I'm not afraid to fall
I'm always taking chances, I'm down to risk it all
I'm really far from perfect, so take me as I am
I'm maybe bruised and broken but I don't give a damn I never knew the world would be so cold
Now all I want to do is find my way home
No place like home
No place like home
No place like
