

Cheap Shot

[Ella Mai](#)

You've been out here tryna work on me for a minute

Fall in love for a minute

You've been tryna see me through the problems

But everything you're sayin' is the problem

You keep tryna make me slow down for a minute

When I just wanna drown for a minute

You can take advantage

But you're taking chances

And I'm so glad you took it

So glad you took it

Cheap shot, coming when I wasn't looking for you

Shots in the dark, got me following your heart

Cheap shot, got me taking cheap shots

Why are you taking cheap shots?

Drinking, smoking, doses, potions

Got me doing things I ain't do

Got me doing things I ain't do, true

Drinking, smoking, doses, emotions

Somethin' 'bout the pain mixed with you

Got me doing things I ain't do, right

I've been over-thinking

Tryna make the wrong one right for no reason

I was cold for a minute

Blind to the feeling, but you did it, now we're in it and I'm so glad you took it (so glad)

So glad you took it (cheap shots)

Cheap shot, coming when I wasn't looking for you

Shots in the dark (shots in the dark), got me following your heart (following your heart, yeah)

Cheap shot, got me taking cheap shots (so cheap, yeah)

Why are you taking cheap shots?

Drinking, smoking, doses, potions

You know you got me doing things I ain't do

You know you got me doing things I ain't do, true

Drinking, smoking, doses, emotions

Somethin' 'bout the pain mixed with you

Got me doing things I ain't do, right, true

And it ain't really what it seems or what it seems or what it looks like (true)

And you can never call me yours but can call me when you feel like it

Drinking, smoking, doses, no emotions

Somethin' 'bout the pain mixed with you

Got me doing things I ain't do, right, true

It's so hard to admit all the changes

Stuck in the same system for ages

I'm just tryna take a hold of what's left of me, it can't get the best of me

It's amazing what a little lust can do

They're just pieces, but they devour you

I'm a monster just tryna vibe with you

So come over if you want but you can never call me yours when we're

Drinking, smoking, doses, no emotions

Somethin' 'bout the pain mixed with you

You know you got me doing things I ain't do

You know you got me doing things I ain't do, true

Drinking, smoking, doses, emotions

Somethin' 'bout the pain mixed with you

Got me doing things I ain't do, right, true

And it ain't really what it seems or what it seems or what it looks like (true)

And you can never call me yours but can call me when you feel like it

Drinking, smoking, doses, no emotions

Somethin' 'bout the pain mixed with you

Got me doing things I ain't do, right, true

True, got me doing things I ain't do, right, true

True, got me doing things I ain't do, right, true

Got me doing things I ain't do, right
