

# Creatures of the Night

Hardwell & Austin Mahone

I know a place where  
We can head up there  
Up to the sunset, to the sky  
Wave to the people  
Everyone you know, up in a satellite  
'Cause we go, we go  
Watching cities and streets come to life  
Yeah you know, you know  
We're just starting, we're learning to fly  
Head for the stars, be who we are  
Living like creatures of the night  
Never grow up, young in our soul  
Waking up on the daylight  
And we do, what we wanna do  
And we do, what we wanna do  
Do what we want, be who we are  
Living like creatures, creatures, creatures  
Of the night  
Living like creatures, creatures, creatures  
Of the night  
Living like creatures, creatures, creatures  
Of the night  
Over the rainbow, chasing the shadows  
You know the story just begun  
Rocking them blue jeans, channeling Springsteen  
Maybe we're born to run  
'Cause we go, we go  
Watching cities and streets come to life  
Yeah you know, you know  
We're just starting, we're learning to fly  
Head for the stars, be who we are  
Living like creatures of the night  
Never grow up, young in our soul  
Waking up on the daylight  
And we do, what we wanna do  
And we do, what we wanna do  
Do what we want, be who we are  
Living like creatures, creatures, creatures  
Of the night  
Living like creatures of the night  
And we do, what we wanna do  
And we do, what we wanna do  
Do what we want, be who we are  
Living like creatures, creatures, creatures

Of the night
