

Road Trip

Eric Bellinger

What if we came up missin?
What if we left and told nobody at all
Wonder if they will miss us
Wonder if they would even care where we are(Pre-)
If it was up to me,
Girl I'll be down to leave
We'd be gone for the rest of our lives
Lord knows that you would be
The perfect scenery
So tell me if you're ready to ride
Just me and my baby
Top down can you picture us rollin
Without having a clue where we going
On a road trip destined for love
Just me and my baby
Speedin like we in slow motion
Close yo eyes and look good darling
On a road trip destined for loveLet's go, Shawty
Let's go, baby
On a road trip destined for love
Let's go, mami
Let's go...Girl I know what you're thinkin
You got some bills and you need that 9 to 5
But I'll give you a new position
Promise that I'll be all you need to survive
(Pre-)
If it was up to me,
Girl I'll be down to leave
We'd be gone for the rest of our lives
Lord knows that you would be
The perfect scenery
So tell me if you're ready to rideJust me and my baby
Top down can you picture us rollin
Without having a clue where we goin
On a road trip destined for love
Just me and my baby
Speedin like we in slow motion
Close yo eyes and look good darling
On a road trip destined for loveLet's go, Shawty
Let's go, baby
On a road trip destined for love
Let's go, mami

Let's go...(Bridge)
We'll have the music turned up
We won't remember where we been
Screamin we ain't got no worries
With yo hair blowin in the wind
Just forget about yo girls
I'll forget about my friends
Girl we won't need none of them
I swear all I need is me is...Me and my baby
Top down can you picture us rollin
Without having a clue where we going
On a road trip destined for love
Just me and my baby
Speedin like we in slow motion
Close yo eyes and look good darling
On a road trip destined for loveLet's go, Shawty
Let's go, baby
On a road trip destined for love
Let's go, mami
Let's go...
