

# Beautiful (feat. Kylie Minogue)

Enrique Iglesias

You, you are so beautiful  
Used to be  
You and me  
Love like no other  
The world around  
Could fall apart  
But we had each other  
Saw you walking you were smiling  
And it hit me like the first time  
Feels like yesterday has come and gone  
But nothing's changed when I look at you  
You, you are so beautiful  
You, you are so beautiful  
And now I  
I just want you to know  
That after all this time  
You're still the one  
So hard sometimes  
Love on the line  
But we said forever  
Sailing on  
Through the storms  
We held together  
And I  
I just want you to know  
That after all this time  
You're still the one  
You, you are so beautiful  
You, you are so beautiful  
And I  
I just want you to know  
That after all this time  
You're still the one  
You, you are so beautiful  
You, you are so beautiful.
