

Mad at Me.

Kiana Ledé

What's up?

How you feelin 'bout it

What's up?

Got some shade about it

What's up?

You mad about it

Can't be mad at me

You know the problem is you seemin' too invested in it

You gettin' hung up, what's up? Why you questioning it?

You lookin' like this talkin' turnin' you on

Way I'm fuckin' you up

Like you love it

I'm up on my

Aries tip

Bet you heard something 'bout it

Fire pit, you keep dancing around me

So legit, put a copyright on it

You lost without it

I don't doubt it

I been on my hot shit lately

Can't be mad at me

You been on some fuck shit lately

Keep that distance please

Yeah, so if you thinking there's a problem we can settle it

Say you don't get it but truth is you just can't get wit' it

I been on my hot shit lately

Can't be mad at me

Used to be so down, down, down, down, down

Hard to get through to you but let me have a go at it

You out here lookin' like you can't get enough

Way I'm fuckin' you up

Like you want it

I'm up on my

Aries tip

Bet you heard something 'bout it

Fire pit, you keep dancing around me

So legit, put a copyright on it

You lost without it

I don't doubt it

I been on my hot shit lately

Can't be mad at me

You been on some fuck shit lately

Keep that distance please

Yeah, so if you thinking there's a problem we can settle it

Say you don't get it but truth is you just can't get wit' it

I been on my hot shit lately

Can't be mad at me

What's up?

How you feelin 'bout it

What's up?

Got some shade about it

What's up?

You mad about it

Can't be mad at me

What's up?

How you feelin 'bout it

What's up?

Got some shade about it

What's up?

You mad about it

Can't be mad at me
