[Intro]

Always on the moon, always on the moon
Always on the moon, always on the moon
Always on the moon, I'm always on the moon

[Chorus]

I mix them perkies with my weed, I feel my body float away
I mix them xannies with my lean, I feel my body go away
I swear I love it up on Saturn but I don't want to go back today
And I swear I love it up on Saturn but I don't want to go back today
Fuck it, I'm on the moon tonight, hey, I'm on the moon tonight, hey
I'm on the moon tonight, hey, I'm on the moon tonight, hey
I'm on the moon tonight, hey, I'm on the moon tonight, hey
I'm on the moon tonight, hey, I'm on the moon tonight, hey

[Verse 1]

I get high like the Goliath, feel so rollercoaster-y
I want your bum bum on my face like a rollercoaster seat
I told her ride on top of my pelvis, come and rollercoaster me
I shoot these bullets round and round, that's a rollercoaster 2-2-3
Fuck it, I'm on the moon tonight
Wrap his ass up, cocoon tonight
Drink up my milk, get a spoon tonight
Load it up, click clack boom tonight
I floated right up to the moon, he sprinkled that white inside his green
I want her kiss me after she suck me, told her Listerene me please
Chopper gon' fuck up his spleen
Walkin' on the moon, I got xans in my lean
Lean, baby come suck on my thing
Holdin' that boy, now he crispy like Kreme
But I'm really gettin' tired of this shit
Kentucky chicken, get fried in this bitch
I don't got no need to lie in this bitch
Bake him up, turkey pot pie in this bitch

[Chorus]

I mix them perkies with my weed, I feel my body float away
I mix them xannies with my lean, I feel my body go away
I swear I love it up on Saturn but I don't want to go back today
And I swear I love it up on Saturn but I don't want to go back today

Fuck it, I'm on the moon tonight, hey, I'm on the moon tonight, hey
I'm on the moon tonight, hey, I'm on the moon tonight, hey
I'm on the moon tonight, hey, I'm on the moon tonight, hey
I'm on the moon tonight, hey, I'm on the moon tonight, hey

[Verse 2]

Hit up your sucker, we ring 'round the rosie them
Chip his ass up, we gon' chicken chipotle him
I pack it, I get the motherfuckin' podiums
Perkies and weed, get to motherfuckin' rolling them
Walk on the moon like I am a martian
Spot him, I pop it, it bust out like parky
Bury the pussy, I sprinkle your cardi
Leave out the booty and hop in that foreign
I love it when you come up to my planet baby
I'm choppin' bricks and serving white just like Hispanics baby
You not an alien, you must be crazy
I jump right in that rocket, go zoom
Nigga don't play with, cut out his room
Pull out that pump and I bing badda boom

[Chorus]

I mix them perkies with my weed, I feel my body float away
I mix them xannies with my lean, I feel my body go away
I swear I love it up on Saturn but I don't want to go back today
And I swear I love it up on Saturn but I don't want to go back today
Fuck it, I'm on the moon tonight, hey, I'm on the moon tonight, hey
I'm on the moon tonight, hey, I'm on the moon tonight, hey
I'm on the moon tonight, hey, I'm on the moon tonight, hey
I'm on the moon tonight, hey, I'm on the moon tonight, hey
