

Dreams

Dua Lipa

[Verse 1]

Last night, my fantasies become oh-so-true
You said you wanted me as much as I want you
If I said it hadn't crossed my mind
Then, oh baby, I'd be lying
It just got complicated, I don't know what to do

[Pre-Chorus]

Can I get it like that, that, that? Let me know
'Cause I really like that, that, that, when you go
And I know it's not real, but the way that I feel
I just need to know
Can I get it like that, that, that? Let me know
'Cause I really like that, that, that, when you go
And I know it's not real, but the way that I feel
I just need to know, know, know, know

[Chorus]

In my dreams
You say you want me, my body
In my dreams
You say you need me, believe me
In my dreams
You say you love me, say you'll never leave my dreams
In my dreams

[Post-Chorus]

You love me like yeah
You love me right, oh yeah
You love me like yeah
You love me right, oh yeah
You love me like yeah
You love me right, oh yeah
You love me like, you love me right
In my dreams

[Verse 2]

Inside I'm screaming loud, I'm calling out your name
It's time you started listening, don't think you can hear me
'Cause if you really wanna go right 'round

Time is tickin', we gotta leave now
Time is tickin', we gotta leave town tonight
Hey

[Pre-Chorus]

Can I get it like that, that, that? Let me know
'Cause I really like that, that, that, when you go
And I know it's not real, but the way that I feel
I just need to know, know, know, know

[Chorus]

In my dreams
You say you want me, my body
In my dreams
You say you need me, believe me
In my dreams
You say you love me, say you'll never leave my dreams
In my dreams

[Post-Chorus]

You love me like yeah
You love me right, oh yeah
You love me like yeah
You love me right, oh yeah
You love me like yeah
You love me right, oh yeah
You love me like, you love me right
In my dreams

[Bridge]

In my dreams, dreams, dreams, yeah
In my dreams, dreams, dreams, yeah
In my dreams, oh

[Chorus]

In my dreams
You say you want me, my body
In my dreams
You say you need me, believe me
In my dreams
You say you love me, say you'll never leave my dreams
In my dreams

[Post-Chorus]

You love me like yeah
You love me right, oh yeah
You love me like yeah
You love me right, oh yeah
You love me like yeah

You love me right, oh yeah
You love me like, you love me right
In my dreams

[Outro]
Yeah
In my dreams
Yeah
In my dreams
