

My Reflection

Andrew Rayel & Emma Hewitt

I have this faith, that just I've shaven
Caught us on my mind
They're calling waves to take me away I won't be back tonight When I breathe, goes sails We've
left behind My dream, ...
Will always be mine
Now I feel as years haven't fold, Oh And we're still connected To those days when we were
young,
Oh And you're my reflection (And you are) (My reflection)
Now I feel as years haven't fold,
Oh And we're still connected To those days when we were young,
Oh And you're my reflection (And you are) (You are my reflection)
