

Used to (feat. Foti & Iamjakehill)

[Josh A](#)

I don't know why you love me no more, no

I don't know why you love me no more, no

You and I go separate ways

Cause lately I don't feel the way

That I used to, that I used to

That I used to, that I used to

You and I go separate ways

Cause lately I don't feel the way

That I used to, that I used to

That I used to, that I used to

I'm feeling this on the days

Back when we used to hang

Used to laugh at all my tracks until I finally got paid

Girl I gave you all my time

All you gave me was pain

When you came back in my life

No, it just ain't the same

You think everything song's about you

No one ever doubts you

Said I'd never make it but I'm doing fine without you

Thought that I was special

I was just a vessel

For you to use me up

Then leave me stuck with all my devils

I don't know why you love me no more, no

I don't know why you love me no more, no

You and I go separate ways

Cause lately I don't feel the way

That I used to, that I used to

That I used to, that I used to

You and I go separate ways

Cause lately I don't feel the way

That I used to, that I used to

That I used to, that I used to

I don't mean to try to make you mad at me

But ever since you left me that was something I was glad to see

Because I am moving up and you be stuck inside the old me

If you see me act like you don't know me

Cause I don't fuck you with you no more

I hope that's clear for you my dear

But I'm good now

Hope you are too

With that burnout

That you fled too

I don't know why you love me no more, no

I don't know why you love me no more, no

You and I go separate ways

Cause lately I don't feel the way

That I used to, that I used to

That I used to, that I used to

You and I go separate ways

Cause lately I don't feel the way

That I used to, that I used to

That I used to, that I used to

I don't know why you love me no more, no

I don't know why you love me no more, no
