

# Cool Breeze

## Goapele

Feel the magic in the air  
Like a whisper in the sunshine  
For once in my life  
The dust is settling  
And I don't care  
Too much about nothing  
We're bending, light the trees  
I finally feel a cool breeze  
Washing over me  
Washing over me  
Cool breeze  
Washing over me  
Two lonely hearts  
Finally knowing what it feels like  
To be content, yeah  
And smiling for no reason  
My favorite part, dancing after dark  
And bending, light the trees  
I finally feel a cool breeze  
Washing over me  
Washing over me  
Cool breeze  
Washing over me  
Washing over me  
If I told you to never doubt my love  
If I told you [?] enough  
Would you believe me? Yeah  
I wanna sail on the wings and the bounds of love  
Throw my cares to the wind while making love  
Can you conceive it?  
Like a cool breeze  
Washing over me  
Washing over me  
Cool breeze  
Washing over me
