

# Kiss Me Like a Stranger

Thomas Rhett

[Verse 1]

Busy working hard, wrapped up in my job, we got bills to pay  
Lately, when we talk, it feels like I don't hear a single word you say  
Can we get back to the basics  
And find that young love and make it?  
And tear down all these walls  
Ignore all of our calls and just stay in

[Chorus]

Kiss me like a stranger  
Baby, hold me like we've never met  
Every touch, a little danger  
Like you ain't gotten used to me yet  
Strike a match, light the fuse  
You and I, we could use some reckless behavior  
So, baby, kiss me like a stranger

[Verse 2]

Lightning on my skin  
Every touch remembering what you mean to me, oh  
Let me reminisce my lips on your lips  
Like a symphony, you're playing on my heartstrings

[Chorus]

Kiss me like a stranger  
Baby, hold me like we've never met  
Every touch, a little danger  
Like you ain't gotten used to me yet  
Strike a match, light the fuse  
You and I, we could use some reckless behavior  
So, baby, kiss me like a stranger

[Bridge]

It's been a little crazy lately  
Come on and remind me, baby  
Well, girl, don't keep me waiting  
Come on over my way and lay it on me

[Chorus]

And kiss me like a stranger

Baby, hold me like we've never met  
Every touch, a little danger  
Like you ain't gotten used to me yet  
Strike a match, light the fuse  
You and I, we could use some reckless behavior  
So, baby, kiss me like a stranger

[Outro]

Ooh, won't you kiss me, won't you kiss me  
Won't you kiss me like a stranger  
Mmm, yeah, won't you kiss me like a stranger  
Ooh, I got plans for you, I got plans for you  
I got plans for you, I got plans for you  
Kiss me like a stranger  
You feeling now, ooh  
You feeling now, ooh  
You feeling now, ooh
