

# LA (feat. Trombone Shorty)

**Dawn Richard**

These LA streets are killing me  
These LA streets are killing me  
These LA streets are killing me Lemonade lakes  
In the Chevy going 90 down La Brea  
Really cause this shit don't matter  
MJ on the radio so we blast off  
MJ on the radio  
Niggas always chasing answers  
We just wanna know  
If we really matter  
We just wanna know  
We thought we was above it all  
Cause the difference is Wayne was a hot boy  
He said we should keep trying for the sake of surviving  
Now we hot boy  
We thought we was above it all  
Cause the difference is Wayne was a hot boy  
He said we should keep trying for the sake of surviving  
Now we hot boy These LA streets are killing me  
These LA streets are killing me  
These LA streets are killing me  
These LA streets are killing me  
We thought we was above it all  
Cause the difference is Wayne was a hot boy  
He said we should keep trying for the sake of surviving  
Now we hot boy  
We thought we was above it all  
Cause the difference is Wayne was a hot boy  
He said we should keep trying for the sake of surviving  
Now we hot boy These LA streets are killing me  
These LA streets are killing me  
These LA streets are killing me  
These LA streets are killing me
