

Master Your High

38 Spesh

[Intro]

Yeah, nahmsayin'?

I came to kill everything in sight, man, don't even worry, I ain't leavin' nobody breathin',
everybody's dead

I'm walkin' in, I'm walkin' out, in and out, don't even trip
I'm bringin' back everything that's supposed to be brought back and I'm leavin' everything that's
supposed to be left
Ya heard? Trust - Let's go

[Verse]

Now we don't argue or sweat
Catch you in the car with y'all crew
Now it's a carpool, the way y'all dudes is wet
Forget? Nigga, we don't regard you a threat
I'm super fresh, my crew the best with all due respect
Them cars and them checks
That's the reason that y'all moms is in debt
That don't amount to the charm on my neck
You far from a vet and I'm armed with this Tec
I let it off and then bullets dissolve in your flesh
My name Spesh, I'm the one they call the connect
It ain't hard to guess who bars is correct, huh
I done bought outfits worth more than yo Lex
When I called my broads collect, huh, all of them are set, nigga
Never wrote a statement
I'm still dodging federal arraignments
I'm a nigga that get it from the pavement
When you play with fentanyl, that residue is dangerous
We cut it and resell it like edible arrangements
Huh, me and yo' bitch had sexual engagements
Before you fuck mine you schedule a payment, nigga
I was gettin' money when niggas was lookin' bummy
You was lookin' for a plug, my plug was lookin' for me
We was pushin' keys before we was pushin' 20
Bought Ks and my dark days start lookin' sunny, huh
Got here from takin' risks and makin' flips
Created ways to make it rich from a vacant strip
The package ain't land, so fuck it, we wait and sit
I pray the people at the post office don't take my shit
I want a lot of niggas dead, had to make a list
The list got way too big, so I made a wish
Then I went in the studio and created this
And this killed everybody - What a great assist

How good she suck dick is how I rate a bitch
If she don't suck dick, I don't date the bitch
Our relationship is she got my favorite lips
One time she put her face in the ocean and ate a fish, huh
Trust
