

It Doesn't Matter Why

Silversun Pickups

You hear us come and go
We know
You wonder if we're not alone We're alone
You think about us all the time
Don't
Because it doesn't matter why we're known
We're just known
We're just known
You want to read our minds
We know
Is it better on the other side
No
Will it help you sleep at night?
It won't
And it doesn't matter why we're known
We're just known
It doesn't matter why we're known
It doesn't matter why we're known
It doesn't matter why we're known
We're just known Should you stay or go?
Go!
Felling like you're on your own
Oh no!
Will we ever leave you alone?
No!
And it doesn't matter why we're known
We're just known
It doesn't matter why we're known
It doesn't matter why we're known
It doesn't matter why we're known
We're just known
It doesn't matter why we're known
It doesn't matter why we're known
It doesn't matter why we're known
We're just known And if it all goes right
Seen in your eyes
Finally made it out alive
Will you wait for a sign?
Still do have some piece of mind
Wait!
You let your love go
And in your eyes

We finally see we've all been blind
And we've all gone blind
It doesn't matter why we're known
It doesn't matter why we're known
It doesn't matter why we're known
We're just known
It doesn't matter why we're known
It doesn't matter why we're known
It doesn't matter why we're known
We're just known
