

Sundowners

Jordan Davis

Oh oh oh
Oh oh oh
Oh oh oh
Oh oh oh

Waves crashing on our feet standing in some rolled-up jeans
Making tracks in the sand
It's like she's living in a photograph
Disappearing silhouette
Flip-flops in her hands
And every kiss is burning hot
I can't let 'em go to waste
Let's say tonight is all that we got
And I'm ready for the chase

We can be sundowners, intertowners waitin' on a spark
Silent sounders, common wounders tangled in the dark
Like the moon is hanging
Let's keep this dream awake, let's go out until the AM
But tonight let's be some sundowners

Blue gives into the black
Red lips just like a mask
Sets me on fire
While the whole world falls asleep baby, look that you're givin' me
It's taking me higher

And every kiss is burning hot
I can't let 'em go to waste
And once we start we can't stop
Like 80 with no breaks

We can be sundowners, intertowners waitin' on a spark
Silent sounders, common wounders tangled in the dark
Like the moon is hanging
Let's keep this dream awake, let's go out until the AM
Tonight let's be sundowners

We can be the only two up when they close down this down
Let's just live it up till it comes back around
We can be sundowners
We can be common wounders

We can be sundowners, intertowners waitin' on a spark
Silent sounders, common wounders tangled in the dark
Like the moon is hanging
Let's keep this dream awake, let's go out until the AM
But tonight let's be sundowners

Let's just be some common wounders (Oh oh oh)
We can be some plan doubters
We got start sundowners
Sundowners yeah
Oh oh oh
Oh oh oh sundowners
Let's just be sundowners
