

# We Were In Love

**Toby Keith**

If I could invent a time machine, then maybe  
We'd both be seventeenCrusing in my first car, actin like movie stars on a  
Friday night  
Do you remember those Friday nights?We were a rock, ready to roll, there was a fire down in  
our souls  
And all the whole world had to stand still, then turn around us  
'Cause that was the deal  
And oh how those nights went flowing like wine,  
When I was all yours and you were all mine  
And we were in love, yeah we were in love  
I can still see you when I sleep, there is a picture I still keep  
You with your hair in the wind and me with that crazy grin  
Under summer skies when dreams where too young to dieWe were a rock, ready to roll, there  
was a fire down in our soul  
And all the whole world had to stand still, then turn around us  
'Cause that was the deal  
And oh how those nights went flowing like wine,  
When I was all yours and you were all mine  
And we were in love, yeah we were in loveOh I know, I know it sounds crazy but baby your  
still the one  
So let's find a way to bring back the days that our hearts were forever young young  
We were a rock, ready to roll, there was a fire down in our soul  
And all the whole world had to stand still, then turn around us  
'Cause that was the deal  
And oh how those nights went flowing like wine,  
When I was all yours and you were all mine  
And we were in love, yeah we were in love, yeah we were in love
