

Snuff

Slayer

Start with vanity
Arrogance and greed
Panic is my obsession
No one can escapeThe thrill is much too great
Despair is my creation
Everything obscene
Emanates from meHomicide is on the rise
It all begins now
Take your final bow
The camera never liesAction
torture, misery
Endless suffering
Torment, agony
Captured for eternity
Action
You're the main attractionTorture, misery
Endless suffering
Pleasing to the eye
To this you can't denyNo one else around
Razor wire bound
Insanity is so near
Heart begins to seizeWatch you atrophy
Reality is now clear
Take a look inside
Many more have died
The internet's an open door
Everyone can see
Dying brutally
The audience begs for moreAction
torture, misery
Endless suffering
Torment, agonyCaptured for eternity
Action
You're the main attractionTorture, misery
Endless suffering
Pleasing to the eye
To this you can't denyMurder is my future
Killing is my future
Murder is my future
Killing is my futureTorture, misery
Endless suffering
Pleasing to the eye

To this you can't deny Murder is my future
Killing is my future
Murder is my future
Killing is my future Murder is my future
Killing is my future
Murder is my future
Killing is my future Murder is my future
