

All Is Fair In Love and Brostep

Skrillex

[Chorus: Skrillex]

To get a thousand miles from the earth
A rocket would need this much power
It would take far more than a human lifetime
But a space station might look something like this

To get a thousand miles from the earth
A rocket would need this much power
This much power
This much power
This much power
This much power

[Verse 1: Ragga Twins]

(When dem) si we a bun dem up and load den we enta
Buss up di place, people all let off rockas
Mi kinda know dem ya yute have no fiya
Practically fit fi energy an de powa
Check seh we a fren, dem mussy check seh we a star
All up na mi face, now get ready fi di war
Put bullet pon a punk a di mac-10 bizarre
Mad like a lion, now a time fi wi roar

[Chorus: Skrillex]

To get a thousand miles from the earth
A rocket would need this much power
This much power, this much power, this much power

[Post-Chorus: Ragga Twins]

Practically fit fi energy an de powa
Practically fit fi energy an de powa

[Verse 2: Ragga Twins]

Ba-ba-ba-ba-ba-ba-badboy lyricist, big entertaina
Coming up di place mon yuh know wi all retain here
All of di crew betta jump up seh booya
Some of dem will scream and some of dem will holla
Now we get hot, a long time we get warm
We're bad bad bad bad biddie biddie bad bad bad from we born
When Ragga Twins comin' up they ring di alarm

Wid dis one coming like a

[Bridge: Ragga Twins, Zomboy & Skrillex]

It's fucking (haha!)

Practically fit (stop!)

Many types of animals are used in the various...

Back motherf--

Guess who's back motherf--

Back motherf--

Guess who's back motherf--

[Verse 2: Ragga Twins]

Ba-ba-badboy lyricist, big entertaina

Coming up di place mon yuh know wi all retain here

All of di crew betta jump up seh booya

Some of dem will scream and some of dem will holla

Now we get hot, a long time we get warm

We're bad bad bad bad biddie biddie bad bad bad from we born

When Ragga Twins comin' up they ring di alarm

Wid dis one coming like a desert storm

[Chorus: Skrillex]

To get a thousand miles from the earth

A rocket would need this much power

It would take far more than a human lifetime

But a space station might look something like this

To get a thousand miles from the earth

A rocket would need this much power

This much power

This much power

This much power

This much power

[Outro: Skrillex]

Rocket would need this much power

It would take far more than a human lifetime
