

Star (feat. Clipse)

702

What we had was a thing of the past
And I recall showerin' you with gifts, you never had to ask
Thought love was real damn near gave you my last bracelets
With the karats everything class, that was me Now you're alone and empty, bitter
To put it simply, I know you miss me
And that must be a hard pill to swallow
I feel for your man, I'm a hard act to follow How you find the time to think of what we had
before
When everybody that I know is dancin' on the floor
Since you left the time, I've been so tore
Well, let it come out of my mind or else can I go Said I need you, boy
I want a sip of your love to repair my health
Said I need you, boy
So why don't I dance with myself
You're my star
(My star)
Far true or near how you shine
(Ooh)
So no matter how far
(No matter how far it goes)
Dancin' with you in my mind
(Yeah, yeah) Baby, it's cool with me, you left it off his friends
But I know it won't be long until it's on again
You're the honey to every note
You can come inside to get your light, whatever floats your boats Said I need you, boy
I want a sip of your love to repair my health
Said I need you, boy yeah
So why don't I dance with myself
You're my star
(My shinin' star)
Far true or near how you shine
So no matter how far
Dancin' with you in my mind Baby, we used to, we used to walk and talk
(Talk)
And you would hold my hand
(Hand)
By the time we finished talkin'
(Talkin')
We were runnin' out
And I think we move together You came to the home, to the water front castle
Hopped on my king-size bed and we wrestled
Closet full of thousand dollar shoes with the tassel

You heard the chef, you know what he ask you
What you like to eat Meanwhile tryin' to tell the owner of the line askin'
Massage your feet
We laughed all day, nights we treasured
Damn, it's a shame that we couldn't just stay together We used to walk and talk
(Talk)
You would hold my hand
(Hand)
And when we finished talkin'
(Talkin')
We were runnin' out
And I can't wait till we move together Again
Ah, baby
I want you so much
It's like you got the Midas touch You're my star
(You're my, my shinin' star)
Far true or near how you shine
So no matter how far
(Oh, I'm dancin' with you)
Dancin' with you in my mind You're my star
(You're my, my, my, my)
Far true or near how you shine
(How you shine, baby, yeah, yeah, yeah)
So no matter how far
(How far)
(Dancin')
Dancin' with you in my mind
