

# Inhale

## Duke Dumont & Ebenezer

Yeah, high off life, low on sleep  
Down on luck, I've been up all week  
Maybe there could be somebody that saves me? I been faded quite lately  
It's no fun when you're alone  
Now I gotta call a taxi  
My car broke down, dead battery  
I've been blocked off my Uber  
The drivers a dickhead if you ask me  
'Cause I was smellin' like an ounce  
Like a zapp, watching summertime bounce  
I came here to get lifted, I'll be surfing clouds  
That's when I, I first saw you  
Looking like a Friday night out  
I wanna take you to the crib  
And cut all the lights out  
'Cause I need your company  
And I want it right now, right now Baby, I'mma need another hit  
'Cause I want your love  
Inhale, exhale, inhale, exhale  
Baby, I'mma need another hit  
'Cause I want your love  
Inhale, exhale, inhale, exhale, oh yeah  
Can you roll?  
If so then I can get it for the low  
What you need?  
Trust me, everything is better with the green  
Don't kill my vibe, don't blow my buzz  
'Cause I'm a fiend  
Ménage trois, let's make it three  
Selfish, I need you for me  
You'll be like my medication  
Doctor seems to be the only one with patience  
Don't need a cure for these sympoms  
I just need some assistance  
I came here to get lifted up That's when I, I first saw you  
Looking like a Friday night out  
I wanna take you to the crib  
And cut all the lights out  
'Cause I need your company  
And I want it right now, right now Baby, I'mma need another hit  
'Cause I want your love  
Inhale, exhale, inhale, exhale

Baby, I'mma need another hit  
'Cause I want your love  
Inhale, exhale, inhale, exhale, oh yeahLet me love you  
There's no better way to spend the day  
Than getting high with me  
Yeah, so let me love you  
There's no better way to end a day  
Than getting high with meBaby, I'mma need another hit  
'Cause I want your love  
Inhale, exhale, inhale, exhale  
Baby, I'mma need another hit  
'Cause I want your love  
Inhale, exhale, inhale, exhale, oh yeah  
'Cause I want your love  
Inhale, exhale, inhale, exhale  
'Cause I want your love  
Inhale, exhale, inhale, exhale, oh yeah
