X (feat. Missy Elliott & Tweet)

Ja Rule

C'mon, let's get
Pop in love
I know you pop-u-lar
Admitted the club
But I just wanna toss you up
Before I
Swallow you whole
I need to wash it down
Tell your girls
Avion indulge you to hang out
+Intoxicate me+
Free your mind
Free my mind
Freak all night
It's evident
When two worlds collide
Your twice as high
wet thru
Little extras
Get you by in life
High on life
I wonder what
Life would be like
If no more
Women were dykes
And trick hard at low prices
It's a cold, cold world (Yes)
How do we relieve that stress (x)
You know
Pop them thangs
To get extra horny baby girl
You on one
You can't ignore me
Rule and Missy-E
How you love that
With I-G
It's Murda I-N-C, nigga
Hey (Hey boy)
Get me high tonight
Take me away (Take me)
Come inside my world
Come ecstasy (Ecstasy)

Let me show you love
'tween you and me
Let me love you boyYou want freak
I love a lot of excitement
I excite men
I make 'em dirty and triflin
I, been known to leave 'em frightening
Stifling all in love
By the end of the night
And I, want a big "Don John"
To pop a few of these
And make the john last long
