

Untidy Suicides

Alice Donut

my brain is bleeding? it's been dismembered by rabid dogs
your mouth is frothing with a disease
it's all so festive it's all for me
my christmas necktie your nice red boots
asphyxiation from your silk noose
you pull it harder you watch me die
and I shoot backwards into time
and I see into the past
as it's burning? down my neck
a thousand suicides a night
a hundred days of shopping left
I regain consciousness
my legs convulse
you whisper to me
you feel my pulse
my blood is throbbing?
you breathe
your body's pressed up against me
I'm very fond of the special things
that you do for me
cut her down
just cut her down
I already told you
I don't know
