

Medicine

Queen Naija

You tell me you love me
but I ain't been feeling it lately
you say you love keeping me fly, but
can't keep me from looking so crazy come in at 6 in the morning
where you been, where you been?
who is that texting yo phone?
just a friend, just a friend. ok My intuition never lies
there's nothing you can ever hide
already got the screenshots
so there is no need to deny
you been creeping and freaking and sneaking like you'll never lose me
steadily claiming that everyone know we together but you steady choosin swear I can not win
for losing
i've been out here being faithful
I always got this on lockdown
but that aint been keeping us stable so i guess i know what i got to do
give you a taste your own medicine
hey yeah how would you like it if I do the things you do?
put you on do not disturb and entertain these dudes
i'mma ride 'em crazy, and you'll never have a clue
give another guy every thing that belongs to you i'mma call up Bryan, i'mma face-time Ryan,
i'mma text Lorenzo, and i'mma leave you crying don't get it twisted, I can play this game too
how would you like it if I did the same to you, same to you
yeah
you don't like it
now you telling me that i should fight it
why you be out here playing the victim
when I am the one who be crying why dish out it, but can't take it?
I want revenge, I can't fake it
want to see the look on your face when i drop my clothes and I get naked not for you (ooh)
but for him (him)
now tell me playa
how does it make you feel? how could you play me when the love I gave was real?
I even took you back, and you still had no chill boy you ain't gon never learn
play with fire, you get burned
I don't think you understand
til I hit you where it hurts
yeah so I guess I know what I got to do
give you a taste of your own medicine
hay, yeah how would you like it if i did the things you do?
put you on do not disturb and entertain these dudes
i'mma ride 'em crazy and you'll never have a clue

give another guy everything that belongs to you i'mma call up Bryan, i'mma face-time Ryan,
i'mma text Lorenzo, and i'mma leave you crying don't get it twisted I can play thee games too
how would you like it if I did the same to you
same to you
yeah all of those tears I cried
I can't count the lonely nights
time and time, again I tried
so when I turn into a savage boy don't ask me why (why, why)
ask me why? (why, why)
don't ask me whyyyy
yeah
give you a taste of your own medicine....
