

Different Colors

WALK THE MOON

Ooh, ooh, ooh

Ooh, ooh, ooh

Ooh, ooh, ooh

Coming up slowly, our sun out of the hill

Daylight's still a longtime coming, but I know it will
Been out of this spell, oh, but we're coming
away

So we'll be rude, we'll be loud

As long as it takes

This is why, this is why

We crank the dial to the right

Oh, this is why we're biting the bullet

We know the kids are right

(Sing!)

Ooh, ooh, ooh

Different colors

Ooh, ooh, ooh

We carry each other

Ooh, ooh, ooh We're just different colors

This is why we're biting the bullet

We know the kids are right

We keep cranking the music up

driving through our town

But they don't wanna hear

They want us to turn it down

So come on lovers

Come on haters

Tonight we raise a fire

'Cause when the people get to dancin'

They forget about taking sides

This is why, this is why We crank the dial to the right

Oh, this is why we're biting the bullet

We know the kids are right

(Sing!)

Ooh, ooh, ooh

Different colors

Ooh, ooh, ooh

We carry each other

Ooh, ooh, ooh We're just different colors

This is why we're biting the bullet

We know the kids are right

We're coming away Out of your spell

As long as it takes

We're coming away
We're coming away Out of your spell
As long as it takes
We're coming away
This is why, this is why
We crank the dial to the right
This is why we're biting the bullet
We know the kids are right
I said, this is why, this is why We turn it up all night
Oh, this is why we're biting the bullet
We know the kids are right
Ooh, ooh, ooh
Different colors
Ooh, ooh, ooh
We carry each other
Ooh, ooh, ooh
We're just different colors
This is why we're biting the bullet
We know the kids are right
Different colors
We carry each other
(Oh yeah)
We're just different colors
This is why we're biting the bullet
We know the kids are right
