

Ringless

Sofi Tukker

[Verse 1]

We went from heat to hate
When I met you, you were ringless
But you were engaged

[Chorus]

I'm more than the worst thing I've ever done
I'm less than the best thing I've ever won
So what?
Thank god I don't get drunk
Oh, I read on the back of a bathroom stall
That salt water can cure anything at all
But what
But what about us?

[Verse 2]

Your map in my rear view
When I met you, I was strong
But I got lost near you

[Chorus]

I'm more than the worst thing I've ever done
I'm less than the best thing I've ever won
So what?
Thank god I don't get drunk
Oh, I read on the back of a bathroom stall
That salt water can cure anything at all
But what
But what about us?

[Outro]

We're in conversation, it's true if we're ready or not
This is black magic, go back to that ring you forgot
You gotta sleep in the bed you made, and I will not
