

# Anywhere I Go

Vicetone

There's a part of me  
That's lying underneath  
That wants to see the darker side  
Nothing I won't try  
Once or maybe twice  
Are you down to take the ride?  
Living so naive, never going deep  
Ain't a pill I could swallow, swallow, yeah  
Taking off the edge, all I'm asking is  
Will you be there to follow?  
So down, hit ground when I'm going low  
Tell me anywhere I go you will follow  
Go round, all out when I lose control  
Tell me anywhere I go you will follow  
Follow, follow, follow...  
Tell me anywhere I go you will follow  
Tell me anywhere I go you will follow  
Follow, follow, follow...  
Tell me anywhere I go you will follow  
Don't wanna put this wrong  
I know I'm coming strong  
But I can't get this off my mind  
Imagine you and me  
Or you and me and she  
Where do you go when you run wild?  
Living so naive, never going deep  
Ain't a pill I could swallow, swallow, yeah  
Taking off the edge, all I'm asking is  
Will you be there to follow?  
So down, hit ground when I'm going low  
Tell me anywhere I go you will follow  
Go round, all out when I lose control  
Tell me anywhere I go you will follow  
Tell me anywhere I go you will follow  
Follow, follow, follow...  
Tell me anywhere I go you will follow  
Tell me anywhere I go you will follow
