

Daylight

JUMEX

[Intro]

Can't seem to get you all alone

Woo, ooh

[Verse 1]

Wishin' me sweet dreams

When I lie by your?side

Wake?up guitar in?my hand

Risking everything, burning bridges inside

I?know you're back in disguise

Wake up, miss everything, knowing you're not alive

Your world will be my promise

All the things I see you done

[Pre-Chorus]

Let's hope and think, think

What's to choose decisions following you?

Let's say we don't end up losin'

Where do we go from here?

[Chorus]

Beautiful, cute, wasted, baby

Let's stay up 'til daylight savings

I'll be patient for us because

This time it's not enough

Beautiful, cute, wasted, baby

Let's stay up 'til daylight savings

I'll be patient for us because

This time it's not enough (Enough)

[Verse 2]

Beautiful, cute, wasted, girl

I could make your only world

Last forever, baby, just for us

And I'll make your night

Only walk by my side

Let's stay young before, look

Count the stars

[Pre-Chorus]

Let's hope and think, think

What's to choose decisions following you?

Let's say we don't end up losin'

Where do we go from here?

[Chorus]

Beautiful, cute, wasted, baby

Let's stay up 'til daylight savings

I'll be patient for us because

This time it's not enough

Beautiful, cute, wasted, baby

Let's stay up 'til daylight savings

I'll be patient for us because

This time it's not enough (Enough)
