

# Favorite Flavor (feat. Mary J. Blige)

LL Cool J

Uh-huh, eh, heh  
Lay back on this one  
(Yeah, you know how I do baby) You only a customer  
When you walkin' in the presence of hustlers  
Uh, I'm laid back in the cinnamon Range  
Two decades and ain't a damn thing changed Keep my girl in strawberry swirls  
You can taste it, my instinct's basic  
Lord, have mercy, sweet like Hershey  
Kisses, diamonds for the misses, ices on the wrists All different colors of the spectrum  
The smallest flaw and I reject 'em  
Believe me I'm a connoisseur when I inspect 'em  
I baguettes them, invisibly sets them  
They call me big L-ly Wonka from Compton to Yonkers  
Them Chi-Town steppers and them A-Town stompers  
These young rookies, fail to understand  
Every summer I return like the ice cream man Drop what you doin', get-it get-it while you can  
By the eighth, by the ounce, when it's gone I'ma bounce  
It's the F L A V, no if's or maybe's  
You know what I do, drive your taste buds crazy Like lemon drops with chocolate kisses  
Every bite is more delicious  
My favorite flavor  
(Mix me and you and we can't go wrong) Like caramel on vanilla sundae  
Have a scoop, you'll want some day  
'Cause you're my favorite flavor  
(C'mon, baby, baby, c'mon)  
My flavor's unreal  
Smooth but hard like woodgrain on the wheel  
Recline your seat baby, enjoy how it feel  
Why you crossin' your legs, them high heels of eel? Kick off your shoes, run your toes on the  
dash  
Now peel off your stockings, c'mon let's get it poppin'  
I'm in the mood for cotton, candy and I'm plottin'  
To see you in somethin' silky and see-through Me too, man you know how we do  
Camcorder main feature, damn a preview  
I love how the bottom on your body's EQ  
Low but thick though like the base in a six-fo' So here we go, we bunny hoppin'  
I hit the switches, baby, you keep it droppin'  
It feels marvelous, you in charge of this  
I hope you ain't heartless but my guard's now regardless Like lemon drops with chocolate kisses  
Every bite is more delicious  
My favorite flavor  
(Mix me and you and we can't go wrong) Like caramel on vanilla sundae

Have a scoop, you'll want some day  
'Cause you're my favorite flavor  
(C'mon, baby, baby, c'mon)All I wanna do is eat you up 'cause you look so good  
(Think I look alright huh?)  
(I look better on you, what'chu really wanna do?)All I wanna do is show you, boy, that I taste  
good too  
(I know you taste good ma)  
(What'chu sayin', want a sprinkle of the hood ha? Ha?)We had it out  
Now tell your girls the truth when they ask what I'm about  
The cookies and the cream and the peaches an' praline  
Butter pecan themes in your daydreamsAll real sugar, no Saccharin  
Low calorie leave no cavities  
Guaranteed, no place you'd rather be  
Than here with me, mix chocolate in the factoryLike lemondrops with chocolate kisses  
Every bite is more delicious  
My favorite flavor  
(Mix me and you and we can't go wrong)Like caramel on vanilla sundae  
Have a scoop, you'll want some day  
'Cause you're my favorite flavor  
(C'mon, baby, baby, c'mon)Baby
