

Peace

Snoh Aalegra

I'll never be what you want me to be

Said-said-said I, I know the truth has not forsaken me

Peace in the night gon' save my life

Peace in the night gon' save my life

Said peace in my mind gon' save my life, life

We had pet peeves, you had the best of me

But that was all yesterday, so I let it be

Can you accept me? I'm talkin' physically

I got at least four, five more sides to me

Peace in the night gon' save my life

Peace in the night gon' save my life

Said peace in my mind gon' save my life

Life ain't really, ain't really, ain't really

What it used to be

Life ain't really, ain't really, ain't really

What it used to be

Peace in the night gon' save my life
Peace in the night gon' save my life
Said peace in my mind gon' save my life

Life ain't really, ain't really, ain't really
What it used to be
Life ain't really, ain't really, ain't really
What it used to be

Peace in my mind gon' save me
Peace in my mind gon' save me
Peace in my mind gon' save my life

Peace in my mind gon' save my life
Peace in my mind gon' save my life
Peace in the night gon' save my life, life

I said life ain't really, ain't really, ain't really
What it used to be
Life ain't really, ain't really, ain't really
What it used to be

What it used to be
What it, what it used to be
Life ain't really...

What it used to be
