

Emily

Marc Broussard

No matter how hard I try
Every day of my life
I just can't change the way I feel
I wanna make you my world
Can I show you girl
That my love is truly real? All I think about is you
There's nothing else I'd rather do
If you give me just one chance
I'll show you love and romance
And forever we will live
There's no end to the love I can give
I know you're the one for me
Emily
My love grows stronger each day
I love you more than words can say
Can there be a you and me?
Oh I long for your touch
Girl I love you so much
Is this real or fantasy? All I think about is you
There's nothing else I'd rather do
If you give me just one chance
I'll show you love and romance
And forever we will live
There's no end to the love I can give
I know you're the one for me
Emily And if things don't work out
We'll know that we weren't meant to be
If we stand the test of time
We'll live together happily
All I think about is you
There's nothing else I'd rather do
If you give me just one chance
I'll show you love and romance
And forever we will live
There's no end to the love I can give
I know you're the one for me
Emily
