

# Come to Bed (feat. John Rich)

Gretchen Wilson

Sometimes we fight  
'Bout who's wrong and right  
And stay up all night  
And sometimes we drink  
And say hurtful things  
That we don't mean Yeah, we're both screamin'  
But nobody's listenin'  
Let's take this madness  
Out of the kitchen  
Come to bed  
Let's just lay down  
There's just one way  
We're gonna work this out  
Forget what I did  
Forget what you said  
Oh, darlin'  
Come to bed Well, I love you  
You know I do  
And you love me too  
So let's just stop  
Remember what we've got  
Before it all gets lost Just take my hand  
It's been way too long  
Turn out the lights  
And turn each other on  
Come to bed  
Let's just lay down  
There's just one way  
We're gonna work this out  
Forget what I did  
Forget what you said  
Oh, darlin' (darlin')  
Come to bed And let's put aside our prideful feelings for tonight  
In the morning we'll see things in a different light Just come to bed  
Let's just lay down  
There's just one way  
We're gonna work it out  
Forget what I did  
Forget what you said  
Oh, darlin' (darlin')  
Come to bed
