

# Saviour (feat. First Aid Kit)

George Ezra

Being your own saviour, saviour  
Is it saving you?  
Rocks and gravel build a road  
That's alright  
But you're on your own  
Take me back to that midnight moon  
Cradle me  
At that midnight moon  
All of me is all for you  
And what I've got to give is not enough  
It's a dark night  
All of me is all for you  
And what I've got to give is not enough  
It's a dark night  
I saw the devil dance for you  
Crying out, Christ you're bad  
Smoke was rising, trains flew by  
Time was young and you were mine  
Take me back to that midnight moon  
Cradle me  
At that midnight moon  
All of me is all for you  
And what I've got to give is not enough  
It's a dark night  
All of me is all for you  
And what I've got to give is not enough  
It's a dark night  
All of me is all for you  
And what I've got to give is not enough  
It's a dark night  
All of me is all for you  
And what I've got to give is not enough  
It's a dark night  
Take me back to that midnight moon  
Cradle me  
At that midnight moon  
All of me is all for you  
And what I've got to give is not enough
