

# 1959

## John Anderson

Cigarettes were a quarter then Bobby-socks and jeans were in  
Elvis sang the songs that we loved so  
And the most important thing to us was keeping gas in my old truck  
So I could take us to the drive-in show

Then graduation finally came Uncle Sam called me away  
You married someone else while I was gone  
But I kept your letters all these years and I can't help but shed a tear  
When I read the words you wrote me years ago

Baby I'm yours I'll love you always  
I'm gonna stand by you until the end of time  
Remember all of the good things that we shared together  
Signed love Betty 1959

I never will forget the day when you and I went all the way  
I was the first for you and you for me  
I've still got the truck that we loved in it takes me back there now and then  
Back to '59 in my memory

And baby I'm yours I'll love you always...
