

Setting Fires

The Chainsmokers & XYLØ

Down to my last match fire I touch just to feel
Why is it easier to burn than it is to heal? Out in the cold you've been
I begged you to come back in
But I can't do this again I can't keep you from harm
But I'm set on fire to keep you warm
I can't go on and on
Setting fires to keep you warm
I can't keep you from harm
But I'm set on fire to keep you warm
I can't go on and on
Setting fires to keep you warm I can't
I can't go on and on
Setting fires to keep you warm
I've been looking for answers I don't want to hear
Chest to chest with you I'm staring into a mirror Out in the cold you've been
I begged you to come back in
But I can't do this again I can't keep you from harm
But I'm set on fire to keep you warm
I can't go on and on
Setting fires to keep you warm
I can't keep you from harm
But I'm set on fire to keep you warm
I can't go on and on
Setting fires to keep you warm I can't
I can't go on and on
Setting fires to keep you warm
What would I do?
What I wouldn't do to save you
What would I do?
What I wouldn't do to save you I can't keep you from harm
But I'm set on fire to keep you warm
I can't go on and on
Setting fires to keep you warm
I can't keep you from harm
But I'm set on fire to keep you warm
I can't go on and on
Setting fires to keep you warm I can't
I can't
I can't go on and on
Setting fires to keep you warm
I can't
I can't

I can't go on and on
Setting fires to keep you warm
