

# Warning Shot (feat. Cassie)

## Machine Gun Kelly

This is our warning shot ah ah  
The final call  
This is our warning shot ah ah  
The final call  
This is our warning shot ah ah  
The final call, the final call  
This is our warning shot ah ah  
The final call  
Came in no clout small bank and my big mouth  
Small name but these big shots know just' what this kids bout  
I said shit then I ment shit, corenor I dead shit  
I treat hoes just like hoes that through bones go fetch shit  
I'm pitbull, that x shit, that goin in at they neck shit  
That we gon have a problem if I am not on the next shit  
'Cause I wreck shit can't tame me I'm eminem and I'm jay z  
I'm a renegade this rap shit me and all my boy like a-team  
Fuck wrong with y'all this is my  
warning shot so I better see you ghost  
Because i treat competition like hoes, skip conversation  
and cum at their throates  
Boy I'm from the c-l-e-v-e-l-a-n-d and I will be reppin that until I die  
And you either with me or riding against me so lemme know put them l's up in the  
sky lace up  
Call me the man, no better yet call me the kid  
'Cause ain't nobody this young done what I did  
'Cause ain't nobody this young go through the shit I went through these past couple  
years and lived.  
Y'all suckers, hickey shit  
I'm a real rockstar nikki sixx  
I'm minajin y'all jus watching got damn y'all nikki's bitch  
Can the game get anymore corny?  
Can the fame get anymore boring?  
Can any lame y'all think is dope put out garbage and make it easy for me?  
Is it possible for anyone to adore me  
Is it possible for anyone to record me  
So I can address all the people that took my clothes, videos, songs and put em out  
before me  
And it's impossible to die  
Possibly to live with the endless lyrics? somebody call the paramedics  
Somebody call the fucking paramedics  
Is it even possible to lack the academics to get the credit in the city and never  
spend a minute in a class  
Fuck that kiss my ass, drink til it's pitch black roll it up let me hit it.
