## I Wonder Do You Think of Me

## **Keith Whitley**

If you drive around Back in our old hometown I wonder, do you think of me? When you drive by a school Do you remember two fools? I wonder, do you think of me?And remember the park Where you struck the spark To a fire that's still burnin' Oh, in my heart That old graduation day You just drifted away I wonder, do you think of me? And remember those games Those cold football games I was your hero Though I seldom playedBack then could you see What our future would be? I wonder, do you think of me? And the classes we missed Caused by a kiss I can tell you that I've never Felt like that since I don't know, if you would But I'd go back, if I could I wonder, do you think of me?I still love you Do you think of me?
