

# Shine Down

## 009 Sound System

Oh yeah  
Won't you give me that star light shine down  
I'm so there  
If you show me that I'm on your mind now  
I know it's simple to say  
When you're dreaming  
You can believe anything  
But I got reasons to raise  
Like a Jesus, walking out on the rain You turn around, you want to leave  
You can't afford, you can't believe  
Trust me baby, if we're gonna fade away  
(If you let it shine down)  
Don't talk, no need to speak  
Just turn it on, if what I'm feeling  
Trust me baby, you will never fade away  
If you let it, if you let it shine down  
If you let it, if you let it shine down Oh yeah  
Won't you give me that star light shine down  
I'm so there  
If you show me that I'm on your mind now  
I know it's simple to say  
When you're dreaming  
You can believe anything  
But I got reasons to raise  
Like a Jesus, walking out on the rain You turn around, you want to leave  
You can't afford, you can't believe  
Trust me baby, if we're gonna fade away  
(If you let it shine down)  
Don't talk, no need to speak  
Just turn it on, if what I'm feeling  
Trust me baby, you will never fade away  
If you let it, if you let it shine down  
If you let it, if you let it shine down
