

Fire of Freedom

Matisyahu

Fan the flame from the fire of freedom
Fan the flame from the fire of freedom
Fan the flame from the fire of freedom

From out of the fire, into the flame
Runnin pon the land, we be going insane
Tough like a truck, keep me comin' through the rain
Got me coming when I'm running
Got ya feeling ok

I'm the kind of man make you fly like a plane
Take you on a vacation from the pain
Rolling like thunder like a runaway train
Let me take you on an escapade

I say, Oh, yo yo
Oh, Oh, oh oh oh oh oh

Oh, yo yo
Oh, Oh, oh oh oh oh oh

(Chorus)

I'm gonna keep on going, keep on rising
Elevate your mind it's all in the timing
Light up the freedom flame

Open up, the skies your highway
Keep it going til we've reached the right way
Light up the freedom flame

Got roots like a tree, holding me down
With my eyes on the sky but my feet on the ground
And the people all come when they want to gather round
And they hear some distant sound

Split the sea, jump in with me
Tonight we leave, in the streets we scream, Freedom!
I said I let it all ring
I said I let it all ring

Oh, Oh, Oh

(Chorus)

I'm gonna keep on going, keep on rising
Elevate your mind it's all in the timing
Light up the freedom flame

Open up, the skies your highway
Keep it going til we've reached the right way
Light up the freedom flame

Once I was in the dungeon
Now I can taste my freedom

I'm seeing rainbows and rays of light
These are the things make me feel allright
Air tight, out of sight, like in the limelight
When you enter it right, it's bound to be allright

When the train hits and it's on track
The hurricane's back, and I'm gone til the lights
Fade black
Fade black
Let it all rain down

(Chorus)

I'm gonna keep on going, keep on rising
Elevate your mind it's all in the timing
Light up the freedom flame

Open up, the skies your highway
Keep it going til we've reached the right way
Light up the freedom flame

I can feel the way
My love is coming through
Ignite the flame
My life is served for you

Fight the night and do what I got to do
Kiss the sky to prove myself
Just clear the way
My love is coming through
