

Electric Hearts

Cash Cash

[Verse 1]

Is it over yet? When she spent the week in bed
'Cause all your wrongs are wrong and you can't make em' right
Was it all a dream?
'Cause you're finally breaking free
We're gonna to feel the rush coming over us tonight

[Pre-Chorus]

Cause we're going, going, gone

[Chorus]

Throw your hands to the sky like you're flying
Throw your hands in the air, 'cause we'll shake it up tonight
Hot, hot like a fire
When electric hearts collide

[Verse 2]

We're gonna to crash around, 'til we wake this whole damn town
We're gonna flip the switch, and plug it in
And when you loss control
When your beating heart explodes
You're going to scream along to every song we sing to you

[Pre-Chorus]

Cause we're going, going, gone

[Chorus]

Throw your hands to the sky like you're flying
Throw your hands in the air, 'cause we'll shake it up tonight
Hot, hot like a fire
When electric hearts collide
Throw your hands to the sky like you're flying
Throw your hands in the air, 'cause we'll shake it up tonight
Hot, hot like a fire
When electric hearts, electric hearts

[Bridge]

We're gonna take your breath away
You're gonna scream the pain away
And try your luck again, be strong, don't bend

Just give it all we can, and do it again

[Chorus]

Throw your hands to the sky like you're flying
Throw your hands in the air, 'cause we'll shake it up tonight
Hot, hot like a fire
When electric hearts
Throw your hands to the sky like you're flying
Throw your hands in the air, 'cause we'll shake it up tonight
Hot, hot like a fire
When electric hearts
Throw your hands to the sky like you're flying
Throw your hands in the air, 'cause we'll shake it up tonight
Hot, hot like a fire
When electric hearts, electric hearts
When electric hearts collide
