

Stay (Acoustic)

Little Big Town

[Verse 1]

How can I bear to wake up and you're not there
What will I do when I turn and reach for you
I lay my tears on the windowsill, I'll only cry 'til I get over you
But how long will it take me, won't you save me?

[Chorus]

And stay just a little bit longer
'Til I'm a little bit stronger to take all this
And stay just a little more time 'til I can find a way
Please stay

[Verse 2]

Will I ever smile again, when losin' love takes my best friend
To wonder where, wonder how, I wonder what you're doin'
One more night just before you break me
Hold me safely

[Chorus]

And stay just a little bit longer
'Til I'm a little bit stronger to take all this
And stay just a little more time 'til I can find a way
Please stay

[Bridge]

So I'll be a big girl and close my eyes
As you walk away, don't say goodbye
God save me
Please, won't you

[Chorus]

Stay just a little bit longer
'Til I'm a little bit stronger to take all this
And stay just a little more time 'til I can find a way
Won't you stay just a little bit longer?
