

# Surround You

Echosmith

I search valleys and mountaintops  
Rolling hills and ticking clocks  
Were all I heard all that sound  
Never thought love could be found  
(love x4)I kept passing by every sign  
Hoping one day I'd make you mine  
We'd be laughing side by side  
Darling I'm thrilled to have you  
By my side  
Wherever you are  
Whenever you need me  
Just crawl in my arms  
Oh and I'll hold you beside me I want my love to surround you  
I want my love to surround you  
And I'll just sing it out  
I want my love to surround you  
I search valleys and mountaintops  
Rolling hills and ticking clocks  
Where all I heard all that sound  
Never thought love could be found
