

# Re Up (feat. NAV)

## Belly

You must have heard about the re-up  
Call me real, ain't you know I be up?  
That's the only time you ever free  
I'm not tryna fk the energy up  
She said, baby, please don't get the wrong idea  
Roll the tree and fk this Hennessey up  
I come down and start to get ideas  
All my demons keep on waking me up Born alone, die alone  
I let the drugs take my soul  
First time I bought some weed I was sold  
If I get 40.000 for a show I'm scared I spend 20.000 on dope  
Either ride for Ricky on my toes  
In high school I never made the honor roll  
Poppin' mollies, I've been on the road  
Hope the highway doesn't take a toll  
Smokin' blunts, burnin' sheet in the Rolls  
No, I'm not the same NAV from before  
I don't know who I am anymore  
Woke up somewhere I ain't been before  
Half a pill ain't enough anymore  
They rappin' about drugs they never did before  
What's fake and what's real? I don't know anymore  
Takin' 4 bars, I should really split 'em  
Fell on my face, had to really quit 'em  
My broski up north whippin' in the kitchen  
My uncle just lost his kidney  
That won't stop me from poppin' and sippin'  
You can tell that I'm down from a distance  
Poppin' prescriptions without a prescription  
Tell Santa, all I want is molly for Christma

### Re-up

Call me real, ain't you know I be up?  
That's the only time you ever free  
I'm not tryna fk the energy up  
She said, baby, please don't get the wrong idea  
Roll the tree and fuck this Hennessey up  
I come down and start to get ideas  
All my demons keep on waking me up Got a hell of a habit, take another tablet out the cabinet  
It's a heaven for a savage, it's a heaven for a savage  
I'm poppin' pills like an addict  
The trap - how I learned mathematics  
It's a heaven for a savage, it's a heaven for a savage

Bags under my eyes cause I go hard  
Probably cost more than the Goyard  
Probably why I got a cold heart  
Probably why I got a shank and my life has been so dark, man  
Pull up, bring your friend - that's a trio  
Show up on the nines like my PO  
You know the deal, the price made her bend over backwards like Neo  
I'm crazy but maybe I'm torn aside  
I'm talkin' 'bout drugs like I glorify it  
The truth is that I'm fuin' horrified  
I only slept twice in like 40 nights  
Man, I'm on the back, she on the poltergeist  
Man, I should just takin' my own advice  
This nine a day love is just overpriced, man  
You must have heard about the re-up  
Call me real, ain't you know I be up?  
That's the only time you ever free  
I'm not tryna fk the energy up  
She said, baby, please don't get the wrong idea  
Roll the tree and fk this Hennessey up  
I come down and start to get ideas  
All my demons keep on waking me up
