

# We Know (Featuring Jermaine Dupri & Da Brat)

## Cappadonna

Uh-huh, uh  
It's a Wu-Tang, so so death thing  
I know y'all ain't ready for death We know the game, like we know time  
We know biz, like we know crime  
We know a tech, like we know a dime  
We know fat, like we know whack  
And how to make the doe stack  
We know, we know This years money and thug affiliation  
Wu-Tang Clan, Dupri collaboration  
ATL, New York, real live creation  
No busters, niggah what no imitations  
If one things not for cash and gold rings  
It's real shit you can feel shit, no basin'  
Hot bitches are rich, plenty ass chasin'  
This be that bomb shit, stop playa hatin'  
We know the game, like we know time  
We know biz, like we know crime  
We know a trick, like we know a dime  
We know fat, like we know whack  
And how to make the doe stack  
We know, we know We know bad, like we know good  
We know the world, like we know the hood  
We know young, like we know old  
We know platinum, like we know gold  
And how to get the fat dough  
We know, we know  
We know how to blow this weed, how to toke it up  
Take a smoke with us, ya'll wanna get a hold of me  
If you let me of, we know how to pressno, get fucked up  
Can't you tell by the way I talk  
It's the bitch in me that dwells from my head to my socks  
Queen when I crock, pop any niggah like, red buck  
I like sexiest crop more than ever, no matter how you wait  
An' I seen us pray And when I slay niggah's, I brutally burn 'em  
I turn them into church goers, then they'll die by serving  
Pray for all ya, run for cover, when a disaster is behind us  
On the lose like mine and passing others  
Dust, 'cuz we don't give a fuck about him  
Were's the blunts, we can't live without 'em  
We know how to get the money and hussle, we know

How to split a niggah dawg, for fucking over they're dough  
 We know, not to let a motherfucker get to close  
 'Cuz in this world we know, there ain't shit free, so why work niggah? We know the game, like  
 we know time  
 We know biz, like we know crime  
 We know a trick, like we know a dime  
 We know fat, like we know whack  
 And how to make the doe stack  
 We know, we know We know bad, like we know good  
 We know the world, like we know the hood  
 We know young, like we know old  
 We know platinum, like we know gold  
 And how to get the fat dough  
 We know, we know We know this trouble, like we know hoers  
 We know the style, like we know clothes  
 We count bank, can we get dough  
 What? Money and fast cars  
 We can't let it go, Dupri and Cappadonna kid  
 We got the flow, shot callers  
 Ya better be low, so what's on player?  
 Your money with the Wu, it's all about paper  
 What the fuck you wanna do? Champagne all night We know the streets, like we know heat  
 We know what's right, like we love ice  
 We know what's ill, like we're getting bills  
 What? We know what's love, like it's love is love  
 Push, come the shove What's ya'll gonna go with this shit?  
 Yeah, play it, it's the Wu  
 Four us by us, money on the label  
 No fucking around, gats on the table  
 Getting money for life, that's how you say it's stable We know the game, like we know time  
 We know biz, like we know crime  
 We know a trick, like we know a dime  
 We know fat, like we know whack  
 And how the make the doe stack  
 We know, we know We know bad, like we know good  
 We know the world, like we know the hood  
 We know young, like we know old  
 We know platinum, like we know gold  
 And how to get the fat dough  
 We know, we know
