

Mystery of Love

Donna Summer

Seasons are changing
children of love are alive
people reach out to survive together
love is the message
we carry across the sky
down through the passage of time forever
History unfolds
as this story's told

Chorus:

(And it's) the mystery of love
how we go on and on forever
(and it's) the mystery of love
coming to rescue rescue me A man and a woman
lost in each other's embrace
star-crossed in time in a place far away
innocent dreamers
turning the wheels of chance
searching to find romance forever
We will surely find love is for all time

Chorus II:

(And it's) the mystery of love
how we go on and on forever
(and it's) the mystery of love
only one heart can turn the key
down through the history of love
time is the one that holds the answer
(and it's) the mystery of love
Oh, will set me free
For all time

Chorus

I LOVE KAGAN
