

Fast

Luke Bryan

[Verse 1]

Fast

That's the kind of car you wanna drive when you're sixteen

Fast

That's the kind of boys that you want on your home team

Fast

Yeah, you think you're gonna catch your big dreams just like that

Fast

And here you are, looking back

[Chorus]

Sixty seconds now feels more like thirty

Tick-tock, won't stop, around it goes

Sand through the glass sure falls in a hurry

All you keep trying to do is slow it down, soak it in

You're trying to make the good times last as long as you can

But you can't, man

It just goes too fast

[Verse 2]

Fast

That's what your parents said when we were falling in love

It's too fast

There ain't no way the two of us were ever going to last

But we did, and here we are, and our only problem is

[Chorus]

Sixty seconds now feels more like thirty

Tick-tock, won't stop, around it goes

Sand through the glass sure falls in a hurry

All you keep trying to do is slow it down, soak it in

You're trying to make the good times last as long as you can

But you can't, man

It just goes too fast

[Bridge]

Looking at you looking out the window right now

Those eyes, that dress, that smile, that laugh

If I could hit pause, I would somehow

But it don't work like that

[Chorus]

Sixty seconds now feels more like thirty

Tick-tock, won't stop, around it goes

Sand through the glass sure falls in a hurry

All you keep trying to do is slow it down, soak it in

You're trying to make the good times last as long as you can

But you can't, man

It goes too fast

It just goes too fast

Way too fast
