Let It Ride (feat. Norah Jones)

Robert Glasper Experiment

I've never been a gambler
I stay on the same side, in all
So I know I'm alright
But all that's forgotten when
I'm looking in your eyes
Probably out on a limb
Only out from inside love
Show me what it feels like
Guaranteed anything
So our love is on the line
But I let it ride
I let it ride
I let it ride
I let it rideIt's easier than ever now
To walk away with no sight
I know makes you a little alright
I had you in my mind
I'd happily do anything
If I know I'm by your side
You, you show me what it feels like
Guaranteed anything
So our love is on the lineBut I let it ride
I let it ride
I let it ride
I let it ride
All that for you
Just you, I let it ride
I let it ride
I let it ride
Let it ride
I let it ride
I let it ride
