

Follow Me

Hardwell & Jason Derulo

Is it a sin that I want it bad?
Halfway to hell, I've made my bed
Baby, give in and we'll be gone
If I go, will you follow me home? Just like a pill, it's going down
Just say the word, I'll take it now
Come give me high, so I won't be low If I go, will you follow me home tonight?
You don't have to be alone tonight
If I go, will you follow me
If I go, will you follow me?
Baby, follow me My name on your lips, sweat on your skin
I wanna love you again and again
Don't me wait 'cause I need to know Will you follow me?
Nothing ever last forever
All we got is now or never
Baby, we good is good
Won't you follow me home? Won't you follow me?
