

# For Nancy ('Cos It Already Is)

Pete Yorn

And when you said I could not stay with you  
That's not the way you would have wanted to be  
Convince yourself that everything is alright  
'Cos it already is Don't sell your heart and break just anyone  
I want to run with you through moorland fields  
Convince yourself that everything is alright  
'Cos it already is  
'Cos it already is  
So take your lessons hard and stay with him  
When your car crash comes, don't be misled  
Convince yourself that everything is alright  
'Cos it already is  
'Cos it already is So take your lessons hard and stay with him  
And when your car crash comes, don't be misled  
Convince yourself that everything is alright  
'Cos it already is  
'Cos it already is  
So take him home  
So take him home  
So take him home Take him, Take him home  
Take him, Take him home
