

Savoring Samsara

Stuart Davis

It's a big wet dream
spilling semen into phantoms
How long till the orgy's over
and where's the wine that makes me sober?

Chorus:

I'm savoring samsara
even though the candy's hollow
it's all on my tongue
but there's nothing here to swallow
I know all these flavors
keep me here in Hades
but it tastes so good
I keep incarnating

There's a million ways
of licking honey off of razors
But some sugar hides its price
and every lick's another life

Chorus

It's in my lap, it's in my lap
wherever I'm from
this place is bubble gum

Bubble gum
